

Citizens Against Noise

The mission of Citizens Against Noise (CAN) is to eradicate unnecessary noise in our beautiful Hawaiian Islands.

What noise bothers you the most?

- Vehicles with loud mufflers?
- Helicopters?
- Leaf blowers?
- Dogs?
- Loud music or parties?
- Car alarms?

You are not alone!

The common thread in nearly all unnecessary noise is that a tiny segment of the population makes life miserable for the vast majority. It is time for that majority to stand up and be counted.

Please visit our website at

<http://CitizensAgainstNoise.org>

We will be expanding the site to provide tips on what the law is and how to get it enforced.

We'll give you the contact info for noise makers (helicopter companies, etc.)

We plan to start a database of license numbers of noisy vehicles.

CAN would like to hear your concerns about noise in your neighborhood.

Please visit our blog at <http://CitizensAgainstNoise.org/blog>, and voice your opinion. Also, you can reach Cliff of CAN directly at

cnm_-CANOfHawaii@yahoo.com

Together we CAN make Hawaii quieter,
and a better place to live.
