Subject Business Process Management Company - Global 360

Sorry for the late notice, but if you are interested a representative from Global 360 will be in available here in Hawaii on Feb 13-14th. DCCA has been using the Global 360 product since 2001 to manage its Business Registration process. It's a document management solution, but the key to its success in DCCA is its ability to route and process documents based on business rules. Business Registration receives 100,000 filings per year through the Internet and by paper. The Internet filings and scanned paper are routed automatically, based on type, status and content to DCCA staff or automated functions for processing and electronic storage.

Rich Reeves is the Global 360 representative and I've attached his introductory email. If you have an interest in his product please feel free to contact him at the email address below to set up a meeting.

Kevin G. Thornton  
I.S. Manager  
Department of Commerce & Consumer Affairs (DCCA)

Subject Information for State of Hawaii

Hello Kevin,

Please forward the following message to those I.T. Managers that might be interested in the Global 360 product. I appreciate your assistance.

Hello,

For many years, we have a highly successful business process application running in the Department of Commerce and Consumer Affairs. This application is utilized for processing business registrations for the State. Implementing Business Process Management assures that the Department provides expedient and high quality service to business clients while maximizing State resources and cost efficiencies.

I created the attached executive overview to provide a quick synopsis of our ability and experience delivering business process solutions to government and commercial customers around the globe.

I will be in Honolulu on Feb. 13 – 14 working with DCCA and will appreciate an opportunity to meet with you and provide further information that will allow you to explore the potential of extending the success of business process applications and leveraging our expertise in other State departments and agencies.

We have the depth of knowledge required to deliver BPM applications in state governments.

I appreciate your time.

Thank you.

Best regards,

*Rich*
